

VACANCY

AGRICULTURE GROWER

Location: Daures Green Hydrogen Village | **Sector:** Agriculture Facility

About Us:

We are an innovative and dynamic company leading the way in hydrogen, ammonia, and agriculture production in the Erongo Region in Namibia. Our state-of-the-art Butterfly Fixed Vent Greenhouse is designed to optimize plant growth while ensuring environmental sustainability. We are seeking a dedicated and passionate Agriculture Grower to join our dynamic team and contribute to our mission of producing high-quality crops.

Key Responsibilities:

- Plant Cultivation - Manage all aspects of plant growth including planting, watering, fertilizing, and harvesting within the Butterfly Fixed Vent Greenhouse.
- Pest Management - Implement integrated pest management strategies to minimize pests and diseases while adhering to organic farming practices.
- Crop Monitoring - Regularly inspect plants for health, growth progress, and nutritional needs, implementing adjustments as necessary.
- Data Recording - Maintain accurate records of planting schedules, growth metrics, and any treatments applied to ensure detailed tracking of plant health and productivity.
- Collaboration - Work closely with team members in planning and executing crop rotation, planting schedules, and harvest strategies.
- Education & Training - Provide training and education to junior staff regarding best agricultural practices and greenhouse management.
- Sustainability Practices - Contribute to sustainability efforts by implementing ecofriendly practices within all aspects of greenhouse management.

Qualifications and Experience:

- Degree in Agriculture, Horticulture, Plant Science, or a related field preferred.
- 3 to 5 years previous experience in greenhouse management or agriculture, particularly in a fixed vent greenhouse setting.
- Understanding of crop production, plant biology, and pest management strategies.
- Strong observational skills and attention to detail.
- Ability to work both independently and as part of a team.
- Excellent communication skills and a proactive attitude.
- Proficiency in data management and recordkeeping.
- Excellent problem-solving, communication, and project management skills.

Skills and Competencies:

- Ability to implement and manage production schedules and meet strict safety requirements.
- Attention to detail, proactive approach, and a commitment to sustainability.

Why Join Us?

- Be part of an emerging and exciting energy sector in Namibia.
- Work in a forward-thinking environment with opportunities for career growth.
- Competitive salary package with performance-based incentives.
- Contribute to Namibia's clean energy transition and economic development.

Application Deadline: 9th May 2025

How to Apply: Interested candidates should send their CV, cover letter, and relevant qualifications to hr@daures.green with the subject line "Agriculture Grower".
